## **SUSTAINABLE BEEKEEPING, FROM THE SOUTH OF THE WORLD**

**Rural territorial development (RTD):  
Directly related to the beekeeping  
world and its operations, needs and  
challenges**

*Patricio Nayan y Constanza Christian*

*Reasearchers from Rimisp-Latin American Center for Rural  
Development*

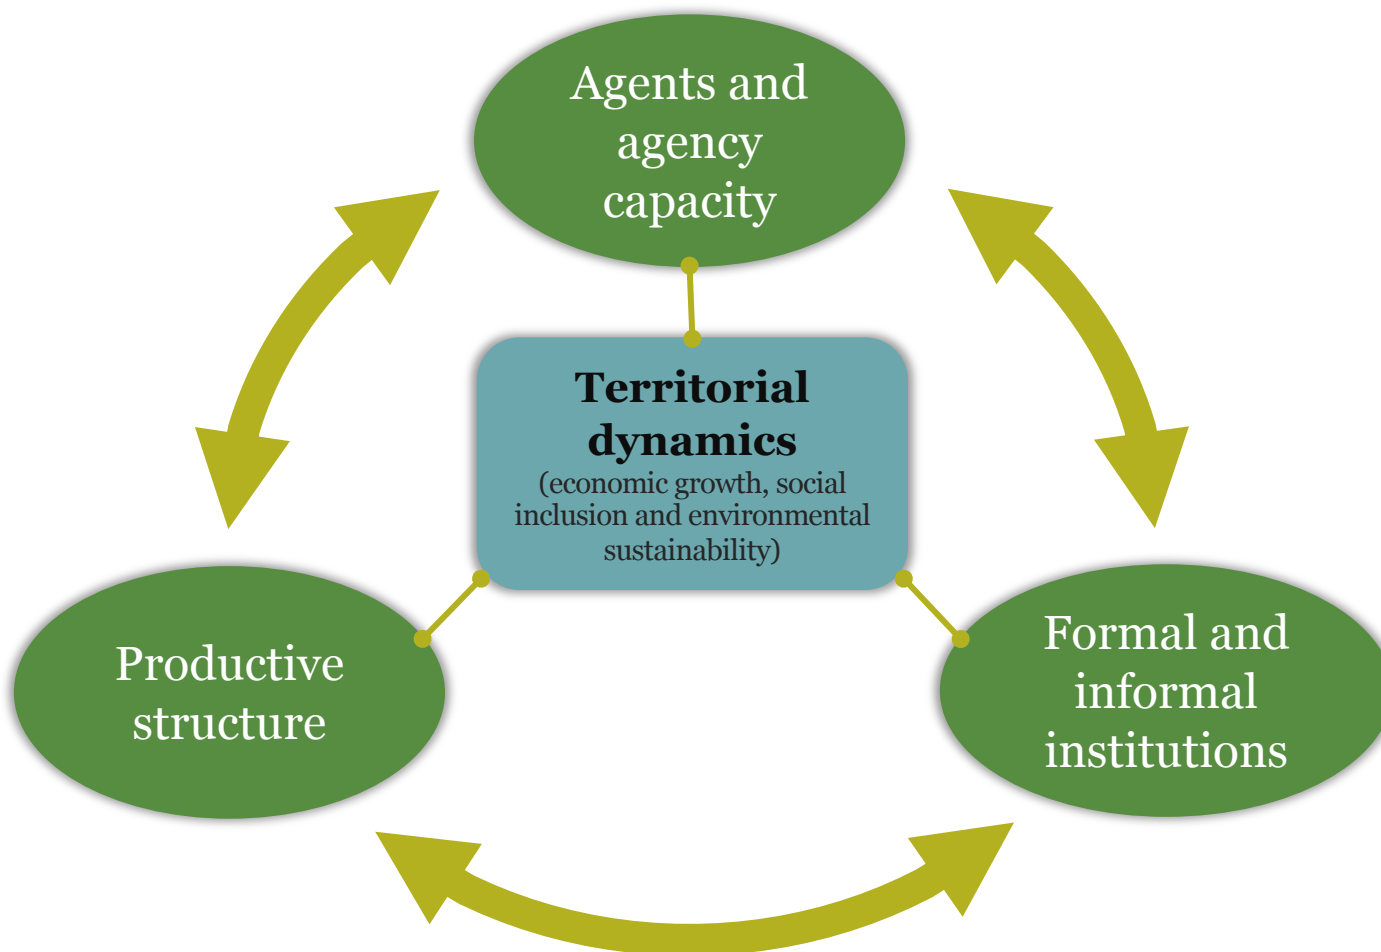

# WE ARE

**Rimisp** is the Latin American Center for Rural Development, dedicated to the generation of knowledge to understand rural transformations and contribute to the formulation of better strategies and policies for fair, sustainable and inclusive development, with a regional perspective and presence from a territorial approach with more than 35 years of experience.

## Rural Territorial Development Approach

## Rural Territorial Development Approach

In our 35 years of research experience, we have arrived at five core principles and operational criteria of the rural territorial development approach that guide Rimisp's advocacy work in Latin America:

- Investment in the territory's assets
- Multisectoral approach
- Rural-urban linkages
- Effective participation and empowerment of territorial actors, towards the construction of a territorial institutionalidad
- Collective vision of the future

**HOWEVER, THE GOVERNANCE NECESSARY TO ADOPT THESE CRITERIA IN PRACTICE WILL DEPEND ON THE REALITY OF EACH TERRITORY, PROJECT OR PROGRAM WITH WHICH ONE IS WORKING.**

## ¿Qué es APIUOH?

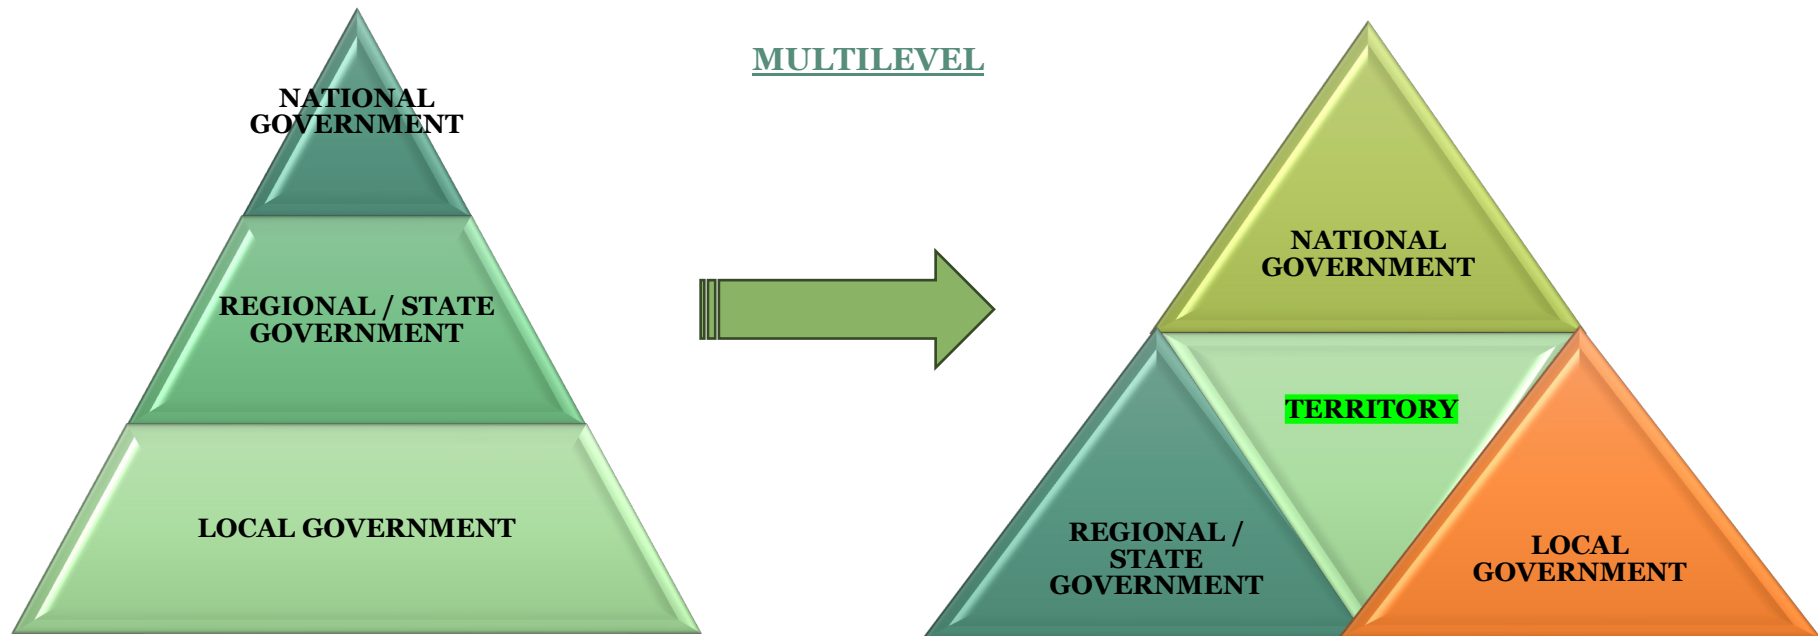

APIUOH nace de la necesidad de vincular a los apicultores de la región con la Universidad de O'Higgins, con el objetivo de aumentar la competitividad apícola de la mano de la ciencia y capacitación.

Ver Más

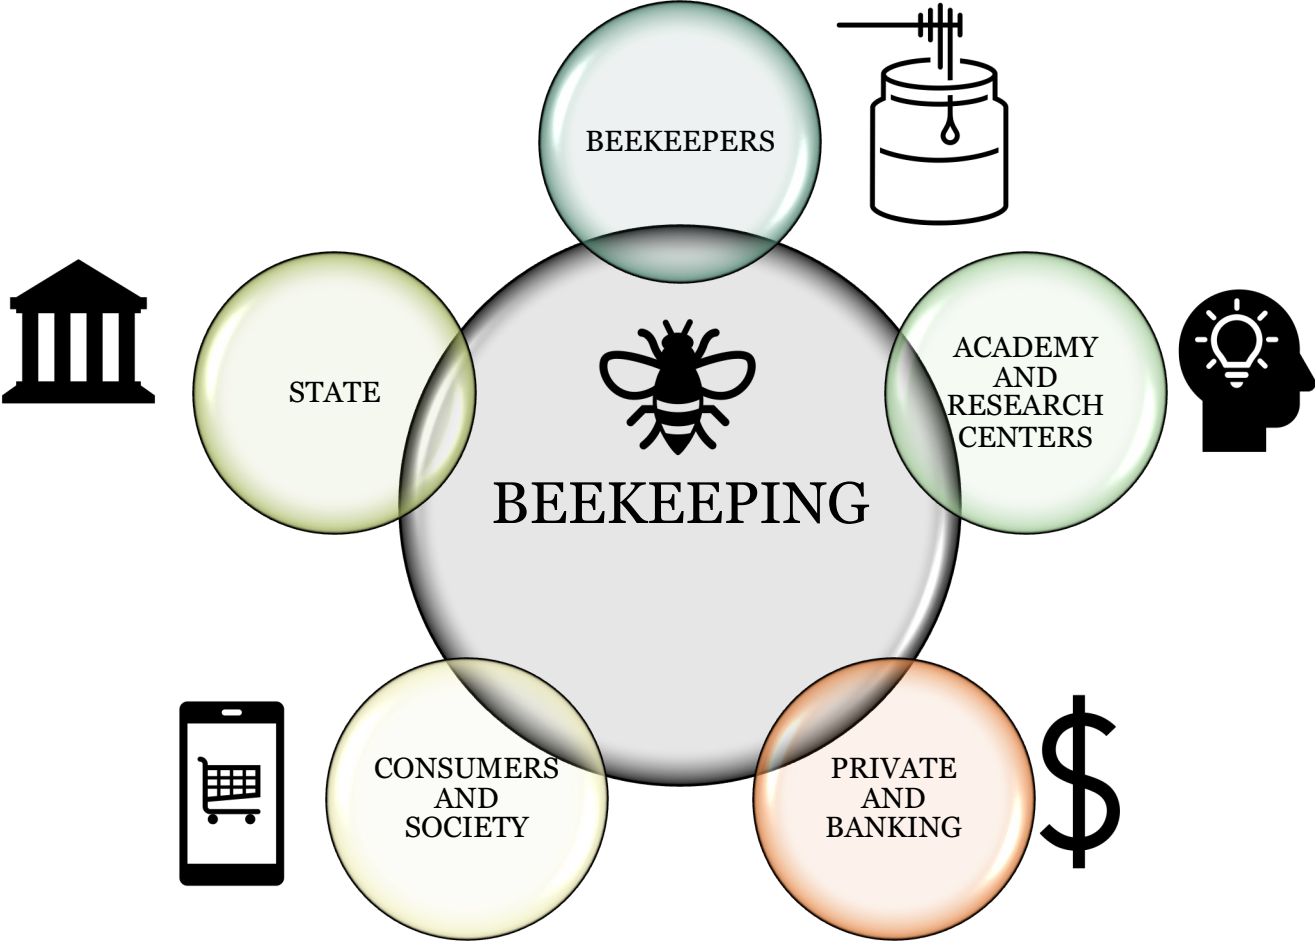

“It is the development of relationships between various actors involved in **the process of deciding, executing and evaluating matters of public interest**, a process that can be characterized by competition and cooperation where they coexist as possible rules; and that includes both formal and informal institutions.” (CEPAL, 2021).

It operates in 2 Dimensions: Multilevel and Multiactor.

## BEEKEEPING PROGRAMS IN LOS LAGOS REGION: INTERVENTION

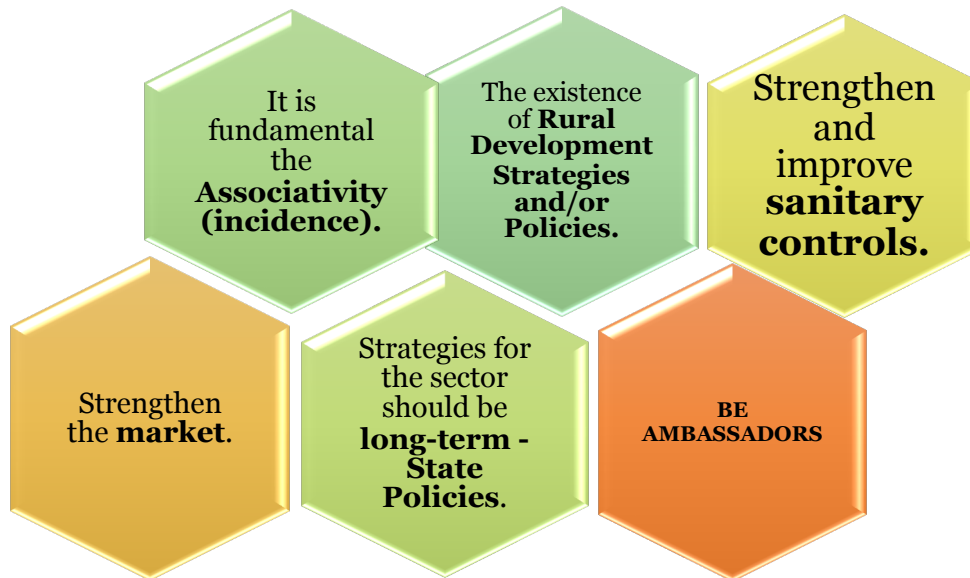

### METHODOLOGY

# RURAL TERRITORIAL DEVELOPMENT (RTD): DIRECTLY RELATED TO THE BEEKEEPING WORLD AND ITS OPERATIONS, NEEDS AND CHALLENGES

## FINAL CONSIDERATIONS FOR THE SUCCESS OF BEEKEEPING GOVERNANCE

**Understand that beekeeping is more than an economic activity.**

- Transcendental for human nutrition and food systems.
- Indispensable in the face of climate change
- First and foremost, **it is a way of life!**
